The individuals seemed to have a much better day of bowling than the team day. Ethan Totten was able to find a good line and he bowled games of 213, 227, and 218 for a series of 658. Grant Fink started off really strong right away with a 247 game. He continued to do well and bowled a 244 and 225 for a series of 696. Had he bowled this score last year he would have been in the top 8. Gavin Schmadeke had a tough day. He battled the lane conditions and couldn't catch a break. He threw games of 166, 193, and 168 for a series of 527.

The girls had an interesting start to their tournament. All of the girls started throwing their practice balls and the coaches realized that the lanes hadn't been oiled. Grace was one of the first to throw and her ball started to hook shortly after the arrows and ended up in the left gutter. The girls were delayed 45 minutes until the lanes were oiled again. Once they got started, they were all able to find a line really quick. Haley Lutz was throwing a good ball, but kept throwing outside her mark. She threw games of 154, 179, and 191 for a series of 524. McKennon Olson also struggled to hit her mark as she was also throwing her ball outside. She threw games of 148, 121, and 168 for a series of 437. Grace Collins was able to string a few strikes together and threw games of 179, 205, and 173 for a series of 557. Overall the kids did a great job staying in the game. They could've lost it after a few bad throws, but they kept persevering trying to figure things out.
